

# DESIGN YOUR OWN BILL!

We learned about the US Bureau of Engraving and Printing, The United States Treasury, and the Federal Reserve Banks, all of which have a part in creating, certifying, and circulating our paper money.

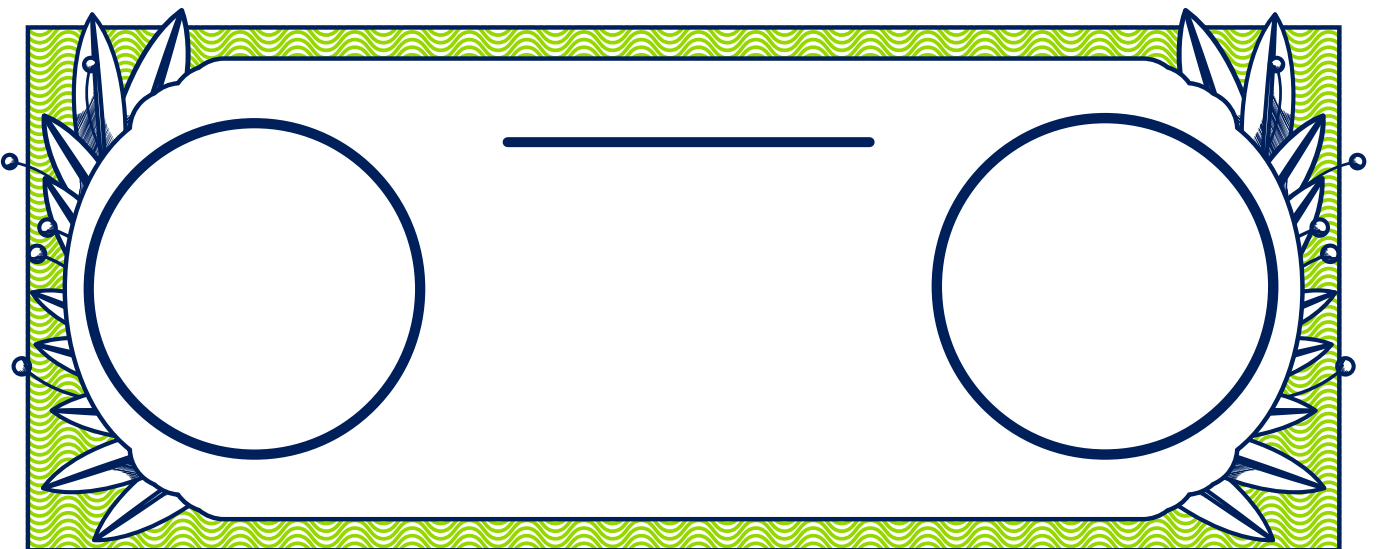

## Now, it's time to create your own!

Don't forget to include some or all of the elements we learned about:

Portrait of an important person, official seals & sayings, a serial number, series year, special colors so it can't be copied, and signatures of officials (*ask your favorite grown ups to sign!*)

## QUESTIONS FOR THE DOLLAR DESIGNER

What materials is it made of?

How much is it worth?

If this bill was real, what

Whose picture is on it?

What do you call it?

would you spend it on?
