How to run a lemonade stand:

- Set up your table and let your friends, family & neighbors know that you are selling lemonade.
- Set a price for each cup:
 - Make sure you add up the cost for all of your ingredients & supplies so you know how many cups you need to sell to start making a profit
- Consider making a donation to a charity with some of your profits and have a jar available so that your customers can also donate.
- At the end of the day, count up your sales, pay back the supply costs and make your donations - the rest of the money is your profits!
- Don't forget to put some of the profits in your savings for a rainy day - or winter!
